Heavy-Duty Goods Cage

The CLC1000 Certified Lifting Cage is designed to move loose or palletised goods using either a forklift or crane.

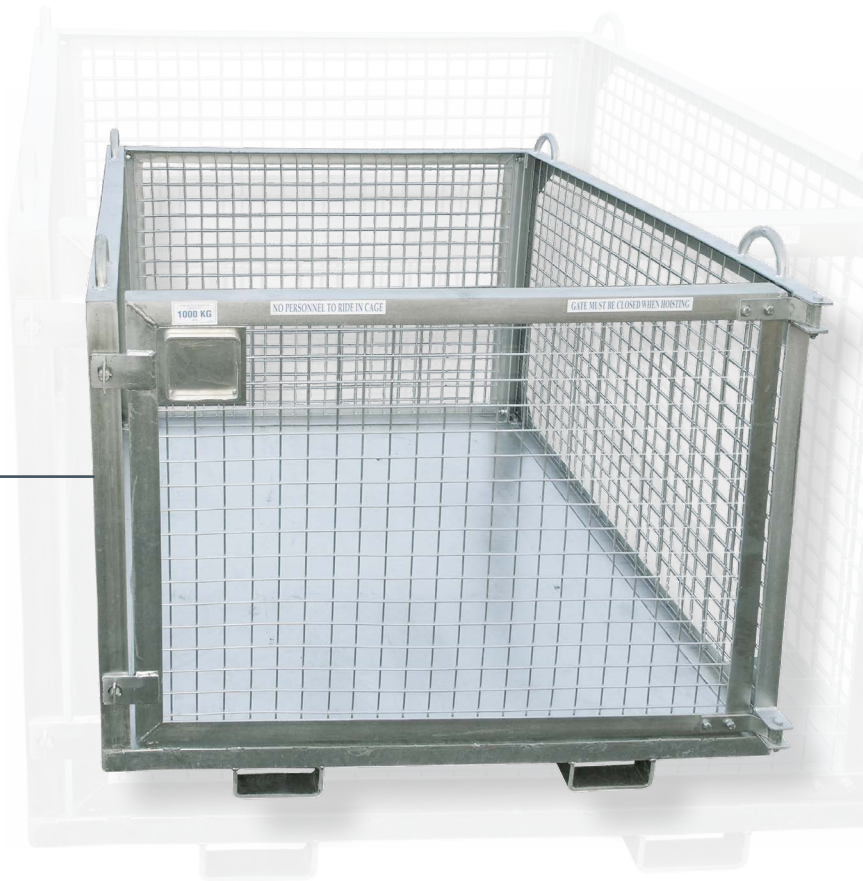

The full width gate with an opening of 1250mm, allows 1200mm square pallets to be placed inside the cage if required.

Stacking feet underneath the cage allow it to be stacked on top of each other 3 high when empty, 2 high when full.

→ Standard Features ○

- 4 oversize lifting points*
- Lift capacity 1000kg
- Stackable, 3 high when empty, 2 high when full
- Front swinging door with 1250mm opening to allow for loading a timber pallet
- Forklift tine stirrups
- Zinc Plated Finish
- Supplied as flatpack kit

*Chains not included

- Stackable
- Complies With Australian Standards
- Heavy-Duty Rated
