MAXA High-Density Storage Module

MAXA® High-Density Storage Cabinets are the ideal solution for storing parts and tools, providing a high-density alternative to shelving and bins.

→ Standard Features ◦

- 100% drawer extension allows full drawer access
- Heavy-duty telescopic bearing drawer runners give a high load capacity per drawer
- The range of drawer sizes and compartments provides flexible storage
- All drawers are lockable individually
- Central key locking for maximum security
- Drawer partitioning supplied standard
- Range of drawer accessories, which include partitions, dividers and plastic bins
- Modular construction – cabinets can be integrated, maximising space and creating a user-friendly storage system
- Mobile option – cabinets can be fitted with castors for ease of manoeuvring
- High-quality beige powder-coated finish

High-density plastic bins for drawer modules

MAXA® Drawer Partitions and Dividers
