Pallet Collars and Pallet Collar Dividers

Our Timber Pallet Retainers are a safe, environmentally friendly and economical storage solution for containing goods on pallets. The pallet retainer's unique bracket system allows you to add levels to suit your storage requirements. These easy-to-use pallet retainers fit standard Australian pallets and are also available with dividers to suit your needs. Ideal for helping prevent goods from falling off pallets in your pallet racking.

→ Standard Features ◦

- Simple and effective way to store parts and equipment safely on pallets
- Add to the height as required
- Flatpack for efficient transport and storage
- Designed to suit a standard timber pallet

Pallet Collar Dividers:

- Utilise and maximise storage of difficult and fragile boxes or parts
- Securely locks onto pallet collar beams
- Necessary brackets included
