

Heavy-Duty
Storage

Item code: TC002 & TC003

Tyre Storage Cage

Tyre storage cages are ideal for storing and transporting tyres in warehouses and workshops. Their forkliftable and stackable design allows for maximum use of vertical space. Our standard-size cage should suit most applications, but if not, these cages can be custom manufactured.

→ Standard Features

- Bars in base to secure tyres on their tread for storage
- Sheet metal roof that protects tyres from weather
- Stackable
- Large forklift pockets at base
- Heavy-duty locking bars for extra security
- Blue powder-coated finish
- 2000 kg working load limit
