

Item codes: TRAD1800SHD-3

Single Door Tradelocker

The TradeLocker® range of lockers is a must for personal storage requirements in the mining, oil and gas, defence and manufacturing sectors. The TradeLocker® is specifically designed for the rigours of heavy industry. They have fast become known as the ultimate accessory for the FIFO/shift worker and can be found on dozens of mine sites, defence bases and factories throughout Australia.

→ Standard Features

- Perfect for when space is tight
- Three lockable drawer, high-density cabinet for the safe keeping of costly items or tools
- Three shelves, ideal for storage of low height items such as hard hats, boots, etc.
- Foam sealed & key lockable doors to stop dust ingress and theft of items
- Perforated pegboard at back of door for hanging tools
- Sloping top to prevent storage of items above locker
- Fork pockets at base for ease of moving
- Heavy-duty powder coated finish

The single width Tradelocker™ still maintains the general features of the other models, but provides a solution where space is a premium.

Perforated Panel to accept a wide range of accessories

- Lockable
- Increase Efficiency
- Stock Item
- Mine Spec
- Custom Made
