## C55G MAXA Workstation

MAXA workbenches and workstations are designed for use in industrial and maintenance workshops, warehouses and factories. We offer a wide range of sizes and custom options for power, lights, backboards & castor wheels.

Heavy duty galvanised steel bench tops are standard, with stainless steel and laminate options also available.

### → Standard Features ○

- High density storage cabinets fitted with a stainless steel or galvanised steel benchtop (will be specified when quoted with a G or S for galvanised steel and stainless steel respectively)
- Double door storage cabinets include one shelf
- Drawer cabinets are supplied with identification strips and can be fitted with metal partitioning sets or plastic bin configurations
- Rated to 1000kg evenly spread

#### **Custom options available:**

- 100mm high bench backs — with or without power points
- Shelf above benchtop
- Perforated peg board or louvred panel backboard
- Mobile kit with castor wheels
